To Czech Society for Working Equitation

Dear Mrs. Steklova!

At the end of WAVE European Working Equitation Championship 2024, which took place with great dignity, fulfilling the objectives we had set for ourselves, WAVE would like to express its gratitude for your team's participation in this competition.

As well as being an extraordinary way for promoting Working Equitation, this competition was held in an exemplary manner, not only on the competition tracks where the competitive spirit was lived up to, but also outside, where a healthy camaraderie and friendship was demonstrated between the representatives of the 13 countries present.

We would like to congratulate your riders to their successes, also we want to thank Ms. Andrea Lukasova as team leader of Czech Republic for her work to support your riders and our growing discipline.

In the hope that we will always be able to count on your availability and participation in future organisations, we would like to reiterate our thanks and WAVE's willingness to support the development of Working Equitation in your country.

Best regards

WAVE President, Joao Ralao Duarte
